

Contents

Introduction

- Topic A: About the manual
- Topic B: Setting your expectations
- Topic C: Re-keying the course

Network basics

- Topic A: Network concepts
- Topic B: Network architectures
- Topic C: The OSI model
- Unit summary: Network basics

Wired computer-to-computer connections

- Topic A: Wired network connections
- Topic B: Network interface cards and modems
- Unit summary: Wired computer-to-computer connections

Network-to-network connections

- Topic A: Network-to-network connection components
- Topic B: LAN wiring
- Topic C: LAN wiring tests
- Unit summary: Network-to-network connections

Wired internetworking devices

- Topic A: Basic internetworking devices
- Topic B: Specialized internetworking devices
- Unit summary: Wired internetworking devices

Wired communication standards

- Topic A: The TCP/IP protocol suite
- Topic B: TCP/IP
- Topic C: DHCP servers
- Unit summary: Wired communication standards

Wireless networking

- Topic A: Wireless network devices
- Topic B: Wireless networking standards
- Topic C: Wireless configuration
- Unit summary: Wireless networking

Security threats and mitigation

- Topic A: Security threats
- Topic B: Threat mitigation

CompTIA Network+ 2009 Edition

Unit summary: Security threats and mitigation

Security practices

Topic A: Operating Systems

Topic B: Devices

Unit Summary: Security practices

Network access control

Topic A: Authentication

Topic B: Public key cryptography

Topic C: Remote access

Topic D: Wireless security

Unit summary: Network access control

Monitoring

Topic A: Monitoring resources

Topic B: Event Viewer

Unit summary: Monitoring

Troubleshooting

Topic A: Troubleshooting basics

Topic B: Troubleshooting the network

Topic C: Troubleshooting scenarios

Unit summary: Troubleshooting

Certification exam objectives map

Topic A: Comprehensive exam objectives

CompTIA Network+ Acronyms

Topic A: Acronym List

Course summary

Topic A: Course summary

Topic B: Continued learning after class
